United States Mint Annual Set of Uncirculated Coins Goes on Sale on May 14

May 7, 2018

WASHINGTON – Sales will open for the 2018 United States Mint Uncirculated Coin Set® **(product code 18RJ)** on May 14 at noon Eastern Time (ET).

This set contains two folders with 10 coins each—one with coins from the United States Mint at Philadelphia and the other with coins from the United States Mint at Denver. Each folder includes these 2018-dated coins with uncirculated finishes:

- Five quarters from the America the Beautiful Quarters® Program honoring Pictured Rocks National Lakeshore (Michigan), Apostle Islands National Lakeshore (Wisconsin), Voyageurs National Park (Minnesota), Cumberland Island National Seashore (Georgia), and Block Island National Wildlife Refuge (Rhode Island).
- One Native American $1 Coin with a theme that commemorates the sports and cultural contributions of Jim Thorpe to the development and history of the United States. The reverse design depicts Jim Thorpe, with the foreground elements highlighting his football and Olympic achievements. Inscriptions are “JIM THORPE,” “WA-THO-HUK” (his native name), “UNITED STATES OF AMERICA,” and “$1.”
- One Kennedy half dollar
- One Roosevelt dime
- One Jefferson nickel
- One Lincoln penny

The United States Mint strikes its uncirculated coins on special presses that use greater force than those used to produce circulating coins. This technique results in a sharp, intricately detailed image. A blister secures the coins in a folder.
